REPORT OF THE OVERSEERS OF THE POOR,

OF THE TOWN OF OAKHAM, FOR THE YEAR ENDING MARCH 1, 1880.

The Overseers in presenting their Annual Report to the Town, respectfully submit the following as the result of their labors in the discharge of the duties of their office during the past year.

Several applications have been made for admission into our family, but the applicants not having the legal qualifications are denied. The fiery darts that have been hurled at the Overseers for their denial of those cases, all have fallen harmless at our feet.

We have one unfortunate member, that has caused us some little trouble; we were fortunate, as we thought, in securing a place of his choice for board; for several months all was satisfactory, and there was evidence of both mental and physical improvement—after which a feeling of discontent seemed to prevail, probably in part, through outside influence. While we would recognize the maternal affection, to be just and right, still we feel that under particular circumstances there should be a limit. In this case, the Overseers have been accused of a want of due kindness to the unfortunate poor.

It would be wise, we think, before giving a verdict, to know the facts in the case. As a result, request was made to go and care for himself, which in our judgment was not for the interest of the town or person, and was denied; but assuming no authority other than his own will, his bark, which had more sail than ballast floated away, where and how far we know not, as it returned without cost to the town, its wanderings was suffered, but not by us approved.

During the year, fifteen persons have received full or partial support.

They further report that they have received of the town,	$1,027 36

There have been two terms of eight weeks each, and one term of ten weeks in all the schools of the town, although at the time of writing this report the school in Coldbrook is not completed, it having been somewhat broken up by sickness.

The fall term of Centre school number one was lengthened two weeks at the expense of the scholars.

The severe winter and prevalence of considerable sickness among the scholars makes our record of attendance very poor during the winter term.

The attendance in the several schools is as follows:

The number of children in town, between the ages of 5 and 15, May 1st, 1880. as ascertained by the assessors, was 135.

The committee have exchanged grammar and spelling books within the year, at a nominal expense of $33.48, although the actual expense is much less, for every scholar now has a new book in place of the old ones. We propose to arrange as soon as convenient, so that the school books may be found at all the stores in town.

The committee have paid out $23.39 from the appropriation of $50.00 made last year. We have left, $26.61 in the treasury. Seven hundred and fifty dollars should be appropriated for the support of schools the coming year.

SCHOOL REPORT.

In conforming with the laws of the Commonwealth, your Committee submit the following report:

The town raised and appropriated for the support of schools the past year the sum of $850.00. We also received from the State School Fund $308.26. Also from dog tax fund $107.46. Making a total for support of schools of $1265.72.

The expenses of the several schools are as follows:

SOUTH SCHOOL.

Amount paid	W. L. Goodspeed, spring term, 10 weeks,	$50 00
	Etta Bullard, fall term, 9 weeks,	49 50
	W. L. Goodspeed, winter term, 11 weeks,	71 50
	fuel and care of house,	13 70
		$184 70

COLDBROOK SCHOOL.

Amount paid	M. A. Griffon, spring term, 9 weeks,	$72 00
	fall term, 10 weeks,	80 00

		$184 50

CENTER SCHOOL—Primary.

Amount paid	Mrs. Minnie L. Woodis, fall term, 10 weeks,	$60 00
	winter term, 11 wks	71 50
		$131 50

CENTER SCHOOL—Grammar.

Amount paid Florence I. Sargeant, spring term, 9 weeks,		$81 00
	fall term, 10 weeks,	80 00
	winter term, 11 weeks	88 00
care of house,		15 55
fuel,		57 50
		$453 55
Total expenses of teachers, care of houses and fuel,		$1,080 75

Repairs on school houses.

South—Paid Dwight Bullard,	.25
Center—Paid on black boards,	2 90

The East Hill school has been discontinued for the year, and we have paid, as by vote of the town, $11.00 to E. S. Parker for transportation of children.

Report on school text-books is as follows:

Total cash value of school books and school supplies belonging to the town April 1, 1886, was $236.75, beside the books and supplies in the different school houses.

Bought during the year.

Boston School Supply,	$6 60
Cowperthwait & Co.,	34 85
Chas. H. Whiting,	21 72
F. S. Conant,	2 69
C. H. Parker,	1 00
	$66 86

Of the above expense $30.50 was caused by exchange of geographies, and we have 16 new books on hand worth, at 80 cents apiece, (cost) $12.50. That taken from $30.50 leaves $17.70 as the actual cost of changing our supply of old geographies in all our schools for new.

School supplies on hand Feb. 1, 1887, amounted to $203.33, $33.42 less than last year to commence the new year with. This added to $66.86 gives $100.28, as the actual cost of school supplies for the past year.

We do not know of any needed change in our school books, unless it be of grammars. We are all out of Raub's grammars, and the book is not entirely satisfactory. The expense of exchange in the end will not be much greater than to supply Raub's grammar, at prices now asked for them.

We have employed Mr. F. S. Conant to take charge of the school supplies during the past year, at an expense of $11.63.

Total expense of teachers, fuel, school supplies, etc., $1,188.16.

L. P. Lovell,	27 00

We believe the usefulness of School Committee will be greatly enhanced if their work is divided, and each Committee have sole charge of one or more schools. We have adopted that method the past year, in part, and wish to try it more fully the coming year. We think the schools have generally been very successful, and much good work has been done by both teachers and scholars. We would especially commend what has been done by the teachers and scholars of our schools, in procuring, by their own efforts, many articles for the school room, which will be both useful and ornamental.

During the spring term the Center schools were united, with an average attendance of only 34. It may not always be practicable, but when it can be done without injury to the schools, quite a saving may be made.

The attendance in the several schools has been as follows:

We might report of the success attending each teacher and find much to commend, but we fail to see the good to be accomplished by so doing. Success has been very marked in all and we believe satisfaction very general. But little has been expended during the past year in repairs and the same may be said for several years. There are some repairs, necessary to be made. The plastering is off from Coldbrook house quite badly, and it is considerable trouble and expense to replace it. We think it would be better, if the room could be sheathed overhead, the desks in the Center should be varnished; it preserves them so much. We recommend that $50.00 be appropriated for this purpose, and the same be raised for schools as last year,—$850. While we are making ample provision for our schools, we would call attention to the great number of days of absence from school as shown by our School Registers. Two thousand five hundred and seventy-eight absent marks have been recorded by our teachers for the year 1887. Doubtless in many instances this absence has been unavoidable. But we can but believe that with a little more exertion, especially on the part of parents, this serious evil could for the most part, be done away with. A scholar who is often absent from school, or tardy in his attendance, soon loses his interest in his studies, and, as a result, his own progress therein is greatly hindered, and the whole school is, in many ways, injured thereby. We have many scholars in our schools who have been for many terms, without an absent or tardy mark registered against their names. Such boys and girls always become our best scholars, and the formation of such habits will contribute very much to their success in after life.

During the winter, Scarlet Fever has prevailed in Coldbrook Village, in a mild form. The school was much broken up thereby, and at the end of about six weeks it was thought best to close the term.

The attendance in the several schools has been as follows:

Due School Committee for services the past year:

Jesse Allen,	52 50
L. P. Lovell,	37 00
H. P. Austin,	10 00

We believe our schools have been unusually successful during the past year. There has been a great change in the methods of teaching during the past few years, and in no branch greater than in grammar. We have been slow, perhaps too slow, to adopt the new methods in use around us. Two years ago we spoke of our need of new grammars. We have sought in vain for a grammar that would satisfy; but we intend the change shall be made before our schools commence for another year.

We are satisfied with the length of our school year, as being all the town is able to furnish, as well as being long enough for the best good of most of our scholars.

We think from our experience of the past year that the best of teachers should be eagerly sought for, even if they do cost a little more.

The School Committee were invited a short time ago to meet with Committees from four neighboring towns, to consult as to the advisability of chosing a General Superintendent of Schools, who should act in connection with local school Committees. It was unanimously agreed that the best interests of our school did not require it.

$50 were appropriated for repairs last year. Your Committee have expended $76.58, most of it on Coldbrook school house. We would advise an appropriation of $50 for the ensuing year. We will try to get along with the same appropriation for the support of schools as last year, $850.

FREE PUBLIC LIBRARY.

For the first time in its history, Oakham is enjoying the advantages of a Library, FREE to ALL her citizens.

For nearly or quite one hundred years, a small subscription Library has been supported by public spirited citizens of the town. There is still in existence a list of the names of the "proprietors" of the "Oakham Social Library," sixty-five in number, bearing the date of Mar. 2, 1803. These "proprietors," at that time, taxed themselves each twenty-five cents, thereby raising $16.25 for the purpose of "enlarging the library."

The patrons of this small Library, during its existence of a century, have received, doubtless, incalculable good therefrom.

The Legislature of 1890 passed an Act, introduced by Hon. E. B. Hayes, present mayor of Lynn, by which the small towns of the State, having no Free Public Libraries by accepting the provisions of the Act, and annually appropriating a small sum, would be aided by the State to the amount of one hundred dollars.

At its last Annual Meeting the town, by a unanimous vote accepted of this generous proposition, and appropriated twenty-five dollars for the purpose of establishing a "Free Public Library" in Oakham.

Kind friends of the town have also shown a deep interest in the success of this enterprise. We would make especial mention of Miss E. P. Sohier of Beverly, member of the "State Library Commission," who has been untiring in her efforts in our behalf.

We have received from our Beverly friends more than 200 valuable books. Valuable volumes have also been received from Hon. E. B. Hayes of Lynn. Also from our own citizens as follows: D. Oscar Lovell, Mrs. M. T. F. Rugg, J. H. O. Lovell, E. J. Crawford, I. W. Mullett, and Jesse Allen. Thus, with the valuable portion of the Old Library, and the one hundred dollars worth of books furnished by the State, we have a well selected Library of 541 volumes.

Further contributions, it is believed, will be made by other friends of the town. A catalogue will be printed before many months.

132 different persons have taken out books. 1117 volumes have been charged in the six months since the Library has been opened.

No expense has attended the care of the same thus far.

A growing interest is shown by our citizens in our "New Library" especially by our children and youth, and we are certain that its influence for good, especially upon the rising generation, cannot be estimated.
